INTERPRETING PUBLIC DRIVER RECORD ABSTRACTS OVERVIEW

Driver record abstracts are a summary of records maintained by WisDOT containing information related to a driver’s operating privilege. Driver abstracts include the following information: Customer, Customer Notations, Product, Conviction, Withdrawal, Accident and Reinstatement. This manual will assist you in interpreting driver record abstracts that you obtain using the Public Abstract Request System (PARS).

General information:

- Abstracts must be requested online.
- Requests are made one record at a time, no bulk requests.
- Type driver’s license number as it appears on the driver’s license (no dashes) or name, sex and date of birth.
- Requestor will be charged \$5 for each record search.
- Requestors will be charged for a “No Customer Match” result.
- Abstracts are presented in PDF format.
- Abstracts may be viewed and printed only; cannot be saved.
- Access to PARS will “time out” after 15 minutes of non-use. If this occurs, you will need to sign on again.
- PARS abstracts display the current record of incidents; history is not provided.
- Color designates the type of entry on the abstract:

Orange	Additional Customer Information
Purple	Product Entry
Blue	Violation and Accident Incidents
Red	Withdrawal Entry
Green	Reinstatement Entry

- Access to the PARS system will be denied if Revenue Accounting determines the account has insufficient funds to cover the requested abstracts.

Requests for abstracts must be made through our Public Abstract Request System (PARS). For questions and assistance with the PARS system, call Wisconsin Interactive Network (WIN) at 608-250-4606, or send an e-mail to wi_helpdesk@egov.com.

Questions about record **content** should be referred to 608-266-2353.

EMPLOYER NOTIFICATION (EN)

Employer Notification is an optional program for PARS participants. Employer Notification provides employers with current information regarding the driving record of their enrolled employees. Employers may enroll any employee whose employment responsibilities include the operation of any motor vehicle. Wisconsin Statutes 343.245 authorizes this program.

Employer Notification allows participants to create and maintain their own roster of employed drivers. The system is designed to have participants logon and check for employee driving activity. As detailed in the following pages, the system will identify all enrolled drivers with recent activity on their driving record and enable the purchase of their driving record abstract. Activity should be monitored on a regular basis, as determined by your particular business needs.

As a **courtesy reminder**, the PARS system will automatically send an e-mail each Monday morning to the designated PARS Agreement Coordinator if there has been recent activity on one or more drivers and an abstract has not yet been requested. Participants will only receive an e-mail if there has been recent activity and a driving record has not yet been requested.

We encourage PARS participants not to solely rely on these e-mails. E-mail delivery can be disrupted by elements beyond the control of DOT, including firewalls, spam filters, and suspended or disabled e-mail accounts.

INTERPRETING VEHICLE RECORD ABSTRACTS

Vehicle record abstracts are a summary of records maintained by WisDOT containing information related to a vehicle in the DMV database. Vehicle abstracts include the following information:

- Name and address of the titled owner
- Name and address of the registered lessee
- Vehicle year, make and model
- Brand information, i.e. salvage, manufacturer buyback
- Fuel type, color, if provided, odometer reading and status
- County and city where the vehicle is kept
- Title number and process date of application
- Lien holder
- License plate number, date registration was processed and expiration date
- Plate registration status

Note: Some license plate records are not available through PARS such as tribal, apportioned and dealer plates.

General Information:

- Abstracts must be requested online.
- Requests are made one record at a time (no bulk requests)
- Enter the data to search for the record. License plate data should be entered without spaces or dashes, even if they appear on the plate. Enter a zero (0) instead of the letter “O”. The letter “O” is seldom used on a plate and only on a personalized plate. When searching by “Name”, entering information in one additional data fields such as DOB, County, Gender, will reduce the number of records returned and possibly provide you with an exact match.
- Requesters will be charged \$5 for each record search. Be careful to enter the data correctly as a “No Matching Record Found” pop-up box will still incur the \$5 search fee.
- Abstracts are created in PDF format. It is important to set the browser preferences to prevent difficulties in using the system. These instructions are at the beginning of this manual.
- Abstracts may be viewed, saved or printed.
- Access to PARS will “time out” after 15 minutes of non-use. When this occurs, you will need to sign on again.
- PARS abstracts display the current electronic record for the vehicle; history data is not provided.
- Access to the PARS system may be suspended if there are insufficient funds to cover the requested abstracts.

- The abstract will display whether there is an incident on the record, but not the details. The following are possible incidents that affect the owner(s) of the vehicle: Administrative suspension for bad check, Bureau of Registration suspension resulting in a recall of the product, IFTA/IRP failure to pay fuel tax fees or IRP fees, failure to meet emission inspection requirements, vehicle experienced emission equipment tampering, OWI title transfer stop or IID requirement, Safety responsibility suspension for no vehicle insurance or inability to pay for damages in a crash, damage judgment as a result of court action, unpaid parking violation suspension.

Requests for abstracts must be made through our Public Abstract Request System (PARS). For questions and assistance with the PARS system, call Wisconsin Interactive Network (WIN) at 608-250-4606, or send an e-mail to wi_helpdesk@egov.com.

Questions about vehicle record **content** should be referred to 608-261-2583.

- 2) **Vehicle Details** provide the description of the vehicle selected. This section contains the following information:

- a) Vehicle year
- b) Manufacturer
- c) Model
- d) Vehicle identification number (VIN)
- e) Color, if recorded (not all vehicle records contain the color)
- f) Village, Township or City where the vehicle is kept (V,T,C)
- g) County of the village, township or city
- h) Vehicle Status

DONOR	Major part of the vehicle was used to create another vehicle titled in our records. This may have been to create a homemade or reconstructed vehicle, or as part of a truck cab replacement. Vehicle Status Reason: o Engine (ENG) Engine used on another vehicle o Frame (FRM) Frame used on another vehicle o Chassis (CHS) Chassis used on another vehicle o Body (BOD) Body used on another vehicle
INVALID	Vehicle sale may have been rescinded, the title may have been created in error by the department or the application was submitted with the incorrect ownership documents.
JUNKED	Vehicle was designated as a junked vehicle by the owner, an insurance company or anyone else who may have had to dispose of the vehicle. Once a vehicle has been designated as junked, Wisconsin law prohibits a title or registration from ever being issued for the vehicle again.
TAMPERED EMISSION SYSTEM	Vehicle was found to have a tampered emission system by either law enforcement, emission testing staff or DMV authorities. The vehicle may not hold valid registration until the emission system is restored and verified by proper authorities.
VALID	Vehicle has no restrictions (the title may still be restricted)

4) Odometer Details - If there is an odometer reading, it will be listed here; some vehicles based on age or type are exempt from odometer disclosure.

- a) Mileage recorded as of the odometer date
- b) Indicates whether the distance traveled is measured in miles or in kilometers
- c) Date of last odometer reading
- d) Status of the odometer

AC	Actual	The mileage reflected in the disclosure is the actual mileage for the vehicle.
NA	Not Actual	The mileage reflected in the disclosure is not the actual mileage for the vehicle.
ES	In Excess	Mileage is in excess of the vehicle’s mechanical limits to record the mileage (some older vehicle instruments only recorded to 99,999 miles).
XM	Exempt	Vehicle is exempt from odometer readings; motor vehicles older than ten years and vehicles registered at 16,000 lbs or more are exempt from odometer readings. Mopeds and trailers are also exempted.
TV	Tampered Verified	Used when the Odometer Investigation Unit verifies that the odometer has been tampered. Once “Tampered” is recorded it will always remain on the vehicle’s record. On future transactions, the new reading, either higher or lower, will be recorded, but the Tampered status will remain.
